

# My very personal Styling Day

## We will show you at your best !

A professional styling consultancy can help you to make the best of you. Being styled means looking attractive, younger and more competent. **You will feel great.**

You will be assisted by two professional stylists for a whole day:

- Find the **very style for you alone** – we will help you.
- Show the **best of you** - we will show you how to enhance every aspect of yourself.
- We will accompany you on a two-hour **shopping tour** and help you choose the right clothes.
- You will receive a professional **make-up** and a **luxurious** gift.
- We will discuss **dress codes** with you, so you will be at your best on any occasion.
- The crowning finish will be a **photo shoot, which will show you that you, too, can be on the cover of a glossy magazine.**

**Look forward to this very special day,  
when you will be the centre of attention.**

The seminar is tailor-made for you or will be an ideal gift for a dear friend.
